

ELIF GURE

Software Developer

PERSONAL PROFILE

Frontend Developer with strong experience in React, JavaScript, TypeScript, TailwindCSS, and Firebase, and growing expertise in backend development with Node.js, Express.js, MongoDB, and Socket.IO. I aim to create scalable, user-friendly, and high-performance web applications by combining modern frontend frameworks with robust backend solutions. Currently expanding my skills towards full-stack development and cloud-based architectures.

SOFTWARE KNOWLEDGE

- React
- Nodejs
- TypeScript
- Tailwind
- MongoDB
- Firebase
- Git & GitHub

PERSONAL SKILLS

- Creativity
- Team building
- Communication
- Problem Solving

LANGUAGE

- English (Native)

WORK EXPERIENCE

INTERN

BilGen Yazılım Akademi / Nov 2025 - present

- Contributed to the development of the BilGen QR System by actively working on both frontend and backend components.
- Built responsive user interfaces with Next.js and Tailwind CSS, and implemented backend APIs, database operations, and authentication flows.
- Collaborated closely with the team to improve system functionality, performance, and overall user experience.

PROJECTS

ONLINE QUIZ APPLICATION (REACT, FIREBASE, TAILWIND)

- Developed user registration/login system using Firebase Authentication.
- Implemented features for quiz creation, editing, and result display.
- Managed real-time data with Firestore database.

QUIZ BACKEND & AUTHENTICATION SYSTEM (NODE.JS, EXPRESS.JS, MONGODB, JWT, SOCKET.IO)

- Built a backend system for handling user authentication, authorization (JWT), and real-time communication with Socket.IO.
- Integrated MongoDB with Mongoose for efficient database modeling and querying.
- Secured sensitive data with password hashing (bcrypt) and implemented refresh token-based session management.

EDUCATION

FULL STACK BOOTCAMP (REACT, NODE.JS)

BilGen Yazılım Akademi (Emin Başbayan)

ENGINEERING

Beykent University / 2016 - 2020
